

3rd Space Visions Symposium

4th September 2026

Cape Canaveral Florida

Theme:

First Steps to Settlement in Space

Papers are invited covering topics germane to establishing a thriving community in Low Earth Orbit. Topics will include but not be limited to:

1. Defining the requirements for structures and systems to support space exploration and settlement.
2. Construction of large structures in space.
3. Transport of materials and people from the surface to a station and return.
4. Logistics support, both on Earth and in orbit.
5. Spacecraft services from such a station.

Venue:

**Cape Canaveral Space Force Museum
Sands Space History Center
100 Spaceport Way Bldg. 90328
Cape Canaveral SFS
Florida 32920**
