

# 3<sup>rd</sup> Space Visions Symposium

**Are you interested in how long-term space  
occupancy can occur?**

**Please note, some dates have changed.**

**There is still time to submit an Abstract for the symposium.**

The theme for this year's symposium is:

## **First Steps to Settlement in Space**

Papers reflecting the theme of the symposium are requested. Topics will include but not be limited to:

1. Defining the requirements for structures and systems
2. To support exploration and settlement.
3. Construction of large structures in space.
4. Transport of materials and people to a station and return.
5. Logistics Support, both on Earth and in orbit.
6. Spacecraft services available at such a station.

### **Important Dates**
